

I KNOW

Music + Lyrics by: Deiren Masterson © 2005

I've known for so long
Ya I've known for so long
What I've known for so long
Is what I've known for so long

That you could be the song
I sing
But oh you're so far away
I know it's up to you
Oh you're so far away
I know it's up to you

I've hoped for so long
Ya I've hoped for so long
What I've hoped for so long
Is what I've hoped for so long

That you could be the sun
I see
But oh you're so far away
I know it's up to you
Oh you're so far away
I know it's up to you

I've prayed for so long
Ya I've prayed for so long
What I've prayed for so long
Is what I've prayed for so long

That you could be the air
I breathe
But oh you're so far away
I know it's up to you
Oh you're so far away
I know it's up to you

I've wished for so long
Ya I've wished for so long
What I've wished for so long
Is what I've wished for so long

That you could be the face

I see
But oh you're so far away
I know it's up to you
Oh you're so far away
I know it's up to you

See me, touch me
Hear me, feel me
Ask me, know me now

Thank God I'm not alone
